AI FOR TRADERS

Your phone is already an assistant. 3 free ways to use it today.

For anyone who sells: market stalls, shops, Instagram and WhatsApp stores.

Snap your price list

Let AI write replies

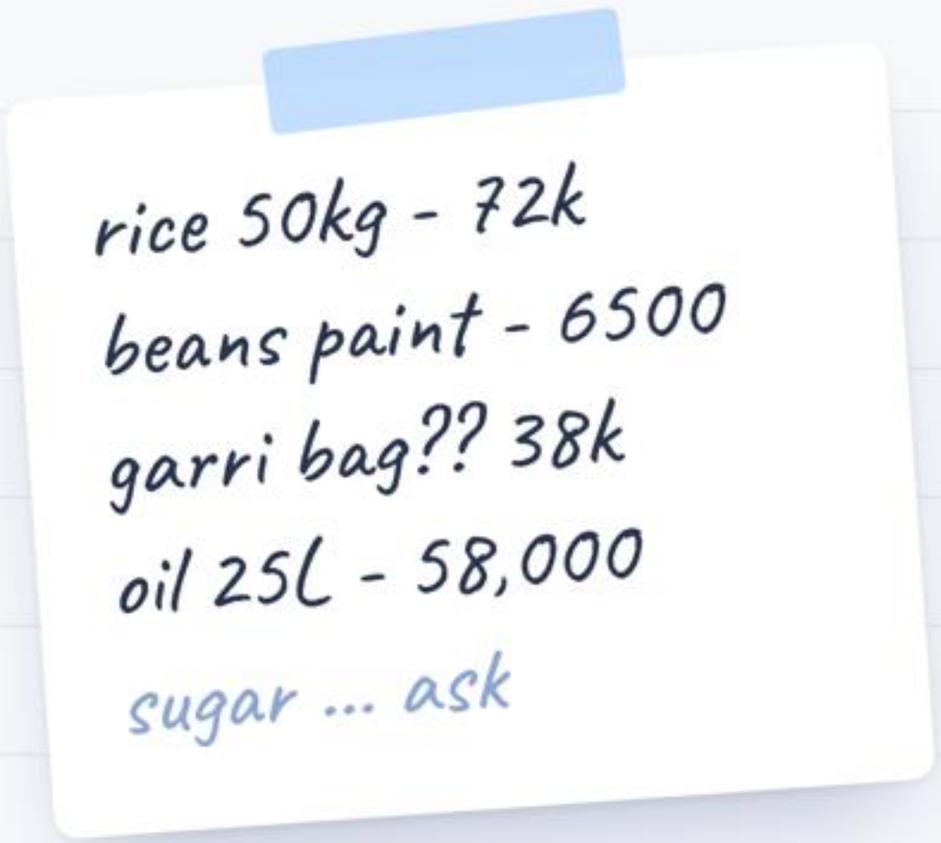

Voice-note your sales

WAY ONE

01

Snap your price list.

AI turns it into

Today's prices

- Rice (50kg bag): ₦72,000
- Beans (paint bucket): ₦6,500
- Garri (bag): ₦38,000
- Vegetable oil (25L): ₦58,000

Send your order and I'll confirm delivery.

COPY THIS PROMPT

```
Turn this photo of my price list into a neat message
for customers. Fix spellings, group items and write
prices in naira.
```

Joshua Obaje
FOUNDER & CTO, EAGLESCROFT

WAY TWO

02

Let AI write your replies.

The questions you answer 50 times a day:

How much last price?

Thank you for asking! This is already our best price, and quality is guaranteed. Shall I keep one for you?

Do you deliver to Kubwa?

Yes, we deliver to Kubwa today if you order before 3pm.

COPY THIS PROMPT

```
Write 5 short, polite replies to: “last price?”, “do you deliver?”, “is it original?”. Friendly, firm on price, in simple English.
```

Joshua Obaje
FOUNDER & CTO, EAGLESCROFT

WAY THREE

03

Voice-note your sales.

At closing time, just talk. Let AI do the maths.

0:42

"sold 3 bags of rice, 5 beans, 2 oil... rice almost finish..."

AI gives you

Today: 3 rice · 5 beans · 2 oil · **₦364,500** total

Restock: rice (2 bags left)

COPY THIS PROMPT

```
Here's my voice note of today's sales. Total it using
my price list and tell me what to restock.
```

FOUNDER & CTO, EAGLESCROFT

YOUR TURN

Start with one today. **Add another tomorrow.**

All three work with the free versions of popular AI apps:

ChatGPT · Gemini · Claude

Send this to a trader you know.

One share could save them an hour every day.
